

ELEKTROLAB

AN ARTIST RUN COLLECTIVE FOCUSED ON NEW MEDIA
AND CREATIVE TECH EDUCATION

WHO WE ARE

Elektrolab is an artist run collective of two new media artists based in Meanjin/Brisbane.

Formed in 2020, after realising there was a gap in the local arts scene for installation showcase, training and support for new media technologies in the arts, Elektrolab is Tara Pattenden and Michelle Brown. They bring over 40 years of combined experience working in the arts and with emerging technologies.

WHAT WE OFFER

Elektrolab offers skill building in creative technology projects through a range of short and long term workshops, mentoring programs and panel presentations. Build your hardware and software skills in topics such as Arduino, Teensy, Virtual Reality, Augmented Reality, Sensors and Electronics Hardware.

Created out of a desire to support more diversity and inclusion in the creative tech industries, Elektrolab is female-led and strives for accessibility, inclusivity and sustainability. Get hands on with fabrication techniques for installation work and online showcase. Include us in your panel discussions or presentations. Elektrolab also creates collaborative arts based output, from virtual reality installations to live performance with wearable art. We can develop innovative and site specific based new media art projects based on budget and deliverable requirements.

SPACE COLLABORATION

Elektrolab loves the opportunity to work with like-minded organisations and spaces to provide facilitated workshops and presentations to local artists as part of a professional and skill development program..

PROGRAMMING OFFERS

Just some of the workshops and support we can offer;

- Online streaming of artist shows (performance etc)
- Online training techniques
- Virtual reality/360 capture of traditional installations for online and virtual viewing
- How to set up a virtual gallery
- Augmented Reality Design
- Face Filters with SparkAR
- Podcasting & Audio Editing basics
- Grim Beeper workshop
- Intro to Electronics workshop
- Turn Fruit into Music
- Virtual Reality in Arts Practice
